### University Open Ended Items

**Open 1** What helped you learn in this course?

The lectures were well structured and audience oriented for discussions.

The readings

Materials from the textbook and a couple other readings. Also the instructor's sources during the lecture.

All of the open ended discussions and reasoning behind topics.

i like the videos we watched on the class

The in class discussion

The way he taught it.

**Open 2** What changes would improve your learning?

More relations between the course sources and the exams.

I liked the class how it was. However a lot of online reading which is difficult compared to readings in the book or on paper.

The material was all very interesting, but it could be presented in different ways other than straight powerpoint.

nothing specific

I would eliminate all online readings, because they are too difficult to read online, and printing them out is wasteful as well as annoying.

Nothing he taught it excellent.

More conclusive class discussions, explicitly state connections between talking points and slides and/or class objectives.

**Best PL** What did you like best about this course?

**SC**

I liked the ability to think abstractly and openly about current topics, also the grading system is outstanding. 30% hw is awesome

He made the class very interesting and it was very easy to get involved.

Instructor allowed an exchange of ideas and opinions between students

I liked the debates we had. If there was a way to incorporate more that would be good!

The plenty additional readings of the course.

it provides a chance to express our idea

Discussion.

**least PL** What did you like least about this course?

**SC**

Honestly can't complain much, the hw was obnoxious but worth it

Can't think of.

Although the instructor was very knowledgeable about course material, he was slightly awkward and could improve in the areas of presentation and varying day by day commonalities.

Nothing.

maybe is the homework part
